

NORSE

2021

Providing Training to Eliminate Compromise

NORSE is the largest and most established private training company in the United States, dedicated to training the men and women who protect our communities and our freedom.

Our mission is to provide the finest training programs available, giving the maximum advantage in high risk circumstances, to those who put their life on the line for others on a daily basis.

Norse provides unmatched value to its clients, ensuring that students experience the most efficient and effective experience during training.

NORSE TRAINING PROGRAMS ARE RESTRICTED TO ACTIVE LAW ENFORCEMENT AND MILITARY PERSONNEL ONLY. OUR TRAINING IS INTENDED TO AID THOSE WHO ARE SWORN TO SERVE THE COMMON GOOD.

NORSE TRAINING METHOD

“The best in the world are the best because they perform the basics perfectly, every time.”

To produce someone who can efficiently and effectively respond in a high stress situation, training is critical. Norse curriculums feature an academic process that ensures proficiency and retention upon completion of a course.

Training subject matter must be consistently practiced so that it may become ingrained and retained once training ends. Our Systematized Training Method ensures consistent subject matter presentation and course format regardless of instructor, venue, or student base.

- ❏ Operationally proven Tactics, Techniques and Procedures.
- ❏ Classroom time consist of 5%, and 95% practical application to help introduce concepts and provide an overview of training. Practical exercises are the primary instruction method.
- ❏ Our Proprietary principle-based system ensures that students are afforded flexibility while ensuring adherence to intended utilization.
- ❏ Principle base system along with sustainment creates an unmatched level of proficiency and long-term retention of Tactics, Techniques and Procedures.
- ❏ No implementation, interpretation, or recommendation of Use of Force procedures in any Norse Course.

INSTRUCTORS

The best systems will fall short if not properly implemented.

Norse instructors are selected to provide value-added performance to our students, as well as the agencies that they represent.

We insist upon personnel committed to the Norse mission and capable of delivering an unmatched level of training quality. Norse instructors undergo a rigorous and intensive development program in order to ensure that students complete our courses with the capacity to utilize the tactics, techniques, and procedures presented within the course. Instructors are selected for their specific background, operational experience, and most importantly, their ability to teach.

Norse instructors are selected based on stringent criteria. Submitting an application is not a path to this, merely a part of the process.

IN THE PAST 6 YEARS, WE HAVE TRAINED:

PROFICIENCY AND RETENTION.

NO OTHER COMPANY HAS ASSEMBLED AN INSTRUCTOR CADRE WITH THE COMPREHENSIVE BACKGROUNDS OF THE NORSE CADRE. MILITARY SPECIAL OPERATIONS, FROM MULTIPLE BRANCHES, COMBINED WITH EXPERIENCED LAW ENFORCEMENT OFFICERS PRODUCES THE FINEST INSTRUCTOR CADRE IN THE INDUSTRY.

NORSE HAS PROVIDED TRAINING TO LAW ENFORCEMENT AGENCIES ACROSS THE COUNTRY, AND OUR INSTRUCTORS REGULARLY TRAVEL TO REMOTE LOCATIONS TO CONDUCT OPEN AND CLOSED COURSE FORMATS. STUDENTS TRAVEL FROM ALL OVER THE COUNTRY TO ATTEND COURSES AT NORSE'S SECOND TO NONE FACILITIES.

ACCREDITATION

Norse was the first private company to attain state accreditation in order to offer continuing education credits for students. Norse courses are accredited in multiple states. We are recognized and approved by multiple state-level government agencies and are motivated to establish accreditation in any state that our clients seek to train in.

TRAINING SYSTEMS

Norse offers training programs for any experience level of officer.

Our training operations fall into four key categories:

- 🔊 **Open Course:** Courses offered to any sworn officer, at Norse facilities, and remote courses around the country.
- 🔊 **Closed Course:** Courses offered at the team or department level. Custom curriculums are available.
- 🔊 **Sustainment:** Recurring training for teams on an annual basis to promote advanced techniques and progression.
- 🔊 **Training Portal:** An interactive, online resource to enhance course results and progression for sustainment clients or students after completing courses. Our course curriculums cater to officers from new to experienced patrol officers, and special operations officers including narcotics, warrant service, and tactical response teams.

PORTAL

Norse clients understand the success that comes with systematized and standardized training. Training time is a precious commodity for Law Enforcement Officers and the agencies that they represent. Advanced training requires more time spent in formal courses to achieve quality results and more time spent post formal course time to ensure proficiency.

Students attending Norse courses utilize Portal as an essential part of the course. Communication between students and from students to instructors in conjunction with instructional video segments of course content produce exceptional levels of proficiency and retention of course content.

Students who become subscribing members of the Portal have continuous access to these resources. The value of training is much greater if the student is able to retain the information with a high level of proficiency. Skillsets which do not get utilized and practiced on a daily basis will consistently diminish. These skillsets are often those that are necessary in an immediate manner within a critical situation.

THE NORSE TRAINING PORTAL HAS THREE SEPARATE AND UNIQUE DIVISIONS.

Department Training Division (DTD) – For full department access featuring standard content along with monitoring and testing features.

Patrol Operations Division (POD) – For Patrol Officers featuring standard content and communication features.

Special Operations Division (SOD) – For SWAT and Warrant Service Teams, Flex and Narcotics Teams featuring standard content and communication features, along with Special Discipline content (Breaching, Mobility, Precision Rifle, and Tactical Medicine).

INNOVATION

The finest foundations require the best tools to build it.

Facilities

Norse training facilities are purpose-built to create the most beneficial environment for training. Located in Southeast Indiana, we offer training facilities, to include student lodging, offering unmatched capabilities for clients.

- 🔊 1,000+ unique layouts
- 🔊 7,000+ square feet of space
- 🔊 2 classrooms
- 🔊 Breaching training facades
- 🔊 Infinitely variable layout with lighted and low-light capabilities

LODGING FACILITIES

Norse offers a lodging facility at affordable rates for students and teams traveling to Norse facilities for training.

SHOOT HOUSE

Our state-of-the-art Shoot House is a non-live fire structure featuring a modular design. The structure can be changed to give a completely new layout in the same floor space that was just used in mere minutes. This and the features above make the Norse facility the premier law enforcement entry training facility in the Midwest.

NORSE
TACTICAL

NORSE
TACTICAL

FITNESS FACILITY

Norse offers top-of-the-line equipment in our fitness center. Students attending courses have access to this before and after training.

NORSE

HIDDEN 99 VALLEY

Norse is partnered with FOP Lodge 99 in New Albany, IN. Our common goal is to create the finest private Law Enforcement training facility in the Midwest.

- 4 - 25 M Live Fire Ranges - Rifle / Pistol
- Multi Purpose Range - 100 - 400 M
- Unknown Distance Range - 400 / 600 / 900 M Stations
- 2500 SF Shoot House

Hidden Valley Range is available to any law enforcement agency that needs a quality training facility. The facility can accommodate day and night exercises in a restricted access location, just minutes from downtown New Albany.

Norse course curriculums fall into two categories: Patrol Operations Division and Special Operations Division. The same methods are taught within both divisions, producing standardization and acceleration of training for officers moving from Patrol into Narcotics, Warrant Service Teams, or SWAT. Course formats are tailored to operations within each division.

PATROL OPERATIONS DIVISION

Tactical Firearms Courses

LVL I – This 1-day course teaches the fundamentals for safe weapons manipulation, accurate target engagement, malfunction mitigation, and weapon transitions and techniques for effective weapon employment in restrictive environments, utilizing the Pistol and Patrol Rifle systems.

LVL II – This 1-day course will challenge students' proficiency with Pistol and Rifle systems, demanding increased levels of accuracy during complex exercises. Dynamic exercises will require students to move to and from cover and engage targets while maintaining a high degree of safety, accuracy, and situational awareness.

LVL III – This 1-day course will introduce students to the most rigorous requirements for the ability to positively identify and accurately engage targets, maintain stringent discipline for safety protocols, and work cooperatively with other officers within restrictive environments.

Tactical Patrol Officer Courses

LVL I – This 3-day course will instruct students on the fundamentals of accurate target engagement with a pistol and skills critical for safe, effective weapons techniques within close quarters environments. Students will learn effective technique to enter and clear a structure as a 2-officer element in a controlled and effective manner.

LVL II – This 3-day course will build upon the level I course, implementing the Patrol Rifle. Students will learn to utilize pistol and rifle platforms in Close Quarters environments and the fundamentals for accurate and safe engagement principles for both systems.

LVL III – This 3-Day course will build upon the fundamentals of firearms with the Pistol and Patrol Rifle platforms. Entry and Clearance fundamentals and techniques, utilizing both weapon systems, as part of a 2-4 officer element will produce a student with an enhanced capacity to respond to increased threat situations.

PATROL OPERATIONS DIVISION

Breacher Courses

Breacher 101 – This 1-Day course will enable the officer to properly utilize a Battering Ram, Sledgehammer, or Halligan Tool to defeat a locked or barricaded door. Officers will understand how to select and implement the proper tool, and defeat the door while maintaining the highest degree of officer safety through proper positioning.

Vehicle Courses

Vehicle Engagements – This 1-Day course will provide the student with an understanding of the considerations necessary in the event that an engagement occurs involving firing into or out of a vehicle. Principles of cover and concealment, along with benefits and deficiencies of the barriers created by materials of a vehicle will be understood.

Specialized Courses

Officer Recovery Course – This 3-Day Course will instruct officers on techniques to successfully facilitate the recovery of a downed officer at a scene. Officers will be put through multiple scenarios in which they will mitigate and suppress an existing threat, move into position, and transport an officer to a position in which they are able to be treated or evacuated.

Low Light Pistol – This 1-Day Course will teach officers utilization of both Weapon-Mounted and Hand-Held light systems for operational use in conjunction with their service pistol. Operation of both light system types while engaging with a pistol, as well as utilization during non-lethal but elevated-risk situations are demonstrated and practiced.

MRDS Pistol – This 2-Day Course will teach officers the specific considerations and techniques to employ a Pistol that is equipped with an MRDS (Miniature Red Dot Sight) System. Specific techniques that will maximize effectiveness with the MRDS system will ensure accuracy and efficiency.

SPECIAL OPERATIONS DIVISION

Close Quarters Tactics Courses

LVL I – This 3-Day course will teach the student the fundamentals of clearing structures utilizing a system focusing on 2 and 4 officer elements, as part of a larger team. The Norse Variable Threat system establishes principles and fundamentals that enable officers to clear structures of varying configurations regardless of the operation profile.

LVL II – This 3-Day curriculum prepares the student to clear structures with increased complexity, as a small element, to include multiple elements operating simultaneously within a structure. Students will be able to produce the highest degree effectiveness, without sacrificing officer safety.

LVL III – This 3-Day course instructs students on the methods required to operate at the highest operative tempo within the most austere conditions, without sacrificing effectiveness. Students will be required to complete scenarios involving high threat circumstances, including Hostage Rescue scenarios, while maintaining an increased level of officer safety.

SWAT Courses

LVL I – This 5-Day course will provide a SWAT, or equivalent officer, with the fundamental critical skills necessary for tactical operations. One day of Pistol / Rifle Training, one day of Mechanical Breaching, and three days of Close Quarters Entry techniques will enhance the skills of experienced officers and prepare new officers for real-world operations.

LVL II – This 5-Day course will enhance the officer's skills to prepare for increased threat level response. Featuring dynamic live fire exercises, mechanical breaching techniques for challenging positions and situations, as well as, advanced techniques for Close Quarters Tactics. This course will enhance the capacity of any SWAT officer to better address elevated threats in less than desirable circumstances.

LVL III – This 5-Day course will challenge officers to perform at the highest level. Range exercises will require elevated levels of discipline, accuracy, and awareness. Vehicle Interdiction techniques will ensure that high risk stops are executed with high levels of precision and officer safety. Close Quarters Tactics methods necessary for lifesaving operations under least favorable conditions will produce an officer capable of responding to the most adverse circumstances with favorable outcomes.

SPECIAL OPERATIONS DIVISION

Breacher Courses

Breacher 201 – This 1-Day Course will instruct the Breacher to defeat eccentric problems with the core mechanical tool systems. Scenarios that restrict movement and present unfavorable positions for the breacher and the entry team will be focused on. Alternate methods for entry team movement and breacher operation and employment of tools will be a key element.

Explosive Breacher Course – This 5-Day Course will instruct students on the elements of safely calculating, constructing, and employing explosive breach charges. Students will be able to properly plan and execute an explosive breach, to include maintaining the safety of the entry team over the entire course of action, from planning to execution.

Precision Rifle Courses

Precision Rifle Course I – This 5-Day Course will instruct students to properly perform the duties of a LE Sniper/Observer. Students will have a detailed understanding of setting up their weapon system and compiling the most accurate data to support a precision engagement under stressful conditions. Techniques to ensure accurate ballistic data, corrections for environmental factors, and positive target identification will ensure precision capability for the student.

Precision Rifle Course II – This 5-Day Course will expand the capabilities of the Sniper/Observer. Students will be able to calculate corrections for moving targets, and effects and corrections for material barriers. Students will be proficient in shooting from alternate positions under adverse conditions while maintaining positive target identification and precise shot placement.

Vehicle Courses

Vehicle Interdiction – This 1-day course will instruct students in proper methods for a high-risk vehicle stop. Students will learn proper methods for approach, security posture, and extraction. Multiple Vehicle Platforms ranging from a passenger vehicle, large SUV, and commercial vehicles will be utilized for practical exercises. Students will understand the individual techniques as well as overall considerations for a team element.

SPECIAL OPERATIONS DIVISION

Specialty Courses

Night Vision Operator Course - This 3-Day Course will instruct the student in all the elements of operations utilizing Night Vision Devices. Procedures and operation of IR Aiming and Illumination devices will be discussed and demonstrated. Weapon sighting and zero procedures under Night Vision Devices will be covered, along with live fire exercises to verify and confirm accuracy. Exercises will include principles of movement and considerations for close quarters and open environments.

Warrant Service Course - This 5-Day Course will provide critical skills in firearms, breaching, vehicle interdiction, and close quarters tactics. The curriculum provides the core elements for a narcotics or warrant service team to conduct operations with enhanced control and elevated levels of officer safety.

Tactical Leadership Course - This 3-Day Course will instruct students on the method and process for proper command and control of a successful operation. Responsibilities of the team commander and team leaders, including contingency considerations, are the core element. Decision making and planning processes, in conjunction with these roles, will enable students completing this course to be effective and efficient in any capacity of tactical operations.
